TRAVEL INFORMATION

WELCOME TO JAKARTA, INDONESIA!

Jakarta is the capital city of the Republic of Indonesia. Jakarta is a huge, sprawling metropolis, home to over 10 million people with diverse ethnic group backgrounds from all over Indonesia. During the day, the number increases with commuters making their way to work in the city and flock out again in the evenings.

Located on the northwest of Java Island, the province of DKI Jakarta has rapidly expanded through the years, absorbing many villages in the process. In fact, Jakarta is a conglomeration of villages known as kampung, now crossed by main roads and superhighways.

GET THERE

By Air

Jakarta has two international airports, one is the larger Soekarno-Hatta International Airport, located in Tangerang, now in the neighboring province of Banten. The other is the smaller Halim Perdanakusuma Airport, which is reserved for limited domestic flights.

Overland

As the nation's capital, Jakarta is connected by land to major cities in Java, public transport to get to Jakarta is available by bus and train.

People who visit Jakarta, usually take time to stop by the neighboring Bogor, famous for its Botanical Garden and highlands getaway in the Puncak area.

Or if you prefer the coastal area, head to Banten and spend a holiday at Anyer and Carita Beach.

By Sea

Tanjung Priok is the name of Jakarta's seaport, located in North Jakarta. It is the busiest seaport in Indonesia.

In April 2018, Genting Dream Cruises, based in Singapore, has opened special itineraries to visit Indonesia's capital for this summer to voyage. A delightful choice for the one who wants to splurge aboard a luxurious cruise ship.

MOBILE PHONE IMEI REGISTRATION IN INDONESIA

You do not have to register your phone, but keep in mind that without the registration, a local SIM card will not work on "imported" devices. Once you have purchased your smartphone from an authorized dealer in Indonesia and activated it there, your phone will automatically get registered.

Tourists who are going to stay less than 3 months in Indonesia, will be able to acquire a SIM card called Telkomsel PraBayar or Telkomsel Tourist Card, which will work for 3 months and it will not be necessary to register the IMEI of your phone. Click here for more information:
